

PRAYER POINTS

January 2021

Please hold the following in your prayers this month.

1. As we have just entered a new lockdown pray for the staff and management as we plan how we continue to deliver services under the new guidelines.

2. We cannot under-estimate the stress and difficulties this brings to the young people we work with. Continue to pray for them as they struggle with study anxieties and pressures of being confined to home again.

3. We have been very successful in our recruitment drive for potential new trustees; please pray that we can continue the process under the new restrictions so that they can join our team as actual trustees, in the vital role of overseeing the services we deliver.

4. As lots of charities compete for limited funding this will be a very tough year for us to find the funds we need to continue. Please pray that we can find the funds needed to provide a much need provision to the young people of Bromley.
